CAREER SUMMARY

Aspiring Full Stack Developer with practical experience in developing end-to-end web applications using modern frontend and backend technologies. Skilled in database management, API development, secure authentication, and building scalable, user-focused software solutions. Eager to contribute technical expertise and create innovative applications that deliver excellent user experiences.

EDUCATIONAL DETAILS

- **MCA** Jun 2024 – Apr 2026
Bishop Heber College(Autonomous), Tiruchirappalli, India
 - GPA: 8.1/10.00
- **BSc. Computer Science** Jun 2021 – Apr 2024
St. Joseph's College(Autonomous), Tiruchirappalli, India
 - GPA: 7.5/10.00

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python
- **Web Technologies:** HTML5, CSS
- **Frameworks & lib:** React.js
- **Server-Side Language:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Design tool:** Figma, Canva
- **Other Tools & Technologies:** Git, GitHub, Postman, MS Office, Power BI, Tableau

INTERNSHIP

- **Full Stack Developer Using MERN Stack** May/2025 - June/2025
Abservetech Private Limited
 - Assisted in developing full-stack web applications using **MongoDB, Express.js, React.js**, and **Node.js**.
 - Built responsive and user-friendly interfaces for student, company, and admin modules.
 - Developed **REST APIs** and implemented features such as **authentication**, resume upload, and job application tracking.
 - Collaborated on **testing, debugging**, and **deploying** web applications using Git, **Postman**, and **Render**.

MAIN PROJECTS

- **College Placement Web App** [\[LIVE\]](#)
Tools: MERN
 - Developed a full-stack College Placement Web Application using **React.js, Node.js, Express.js**, and **MongoDB**.
 - Implemented student registration, resume upload, job posting, application tracking, and interview scheduling functionalities.
 - Built **secure authentication** and **role-based access control (RBAC)** with **JWT** for Students, Companies, and Admins.
- **Smart Voice-Enabled Food Ordering Mobile Application** [\[LIVE\]](#)
Tools: Flutter, Node.js, Firebase Cloud Firestore
 - **Voice-Based Ordering:** Enabled Speech-to-Text and Text-to-Speech features for visually impaired users.
 - **Order Management:** Users can place orders, track delivery status, and manage requests efficiently.
 - **Secure Data Storage:** Integrated Firebase Authentication and Firestore for user management and real-time data.

CERTIFICATIONS

- **Software Developer – TamilNadu Academy of Construction**
- **Basics of Python – InfosysSpringboard**

ACHIEVEMENTS

- **YouTube Content Creator (100K+ Subscribers)**
 - Earned the YouTube Silver Creator Award by growing a channel to 100,000+ subscribers through content strategy, audience engagement, analytics-driven decision making.
